MESSAGES FROM SHREE VASANT

FROM ORION TRANSMISSIONS

Mary: Joseph, how can we be happy forever?

Joseph: According to Sacred Teachings, this is achieved by **“loving God above all things”**

Mary: Where is God? They say God is everywhere but we do not know where.

Joseph: God is within us. We were created in His image and likeness. Our Divine Essence is the same in everyone.

Mary: But how to love God?

Joseph: We love God if we love our neighbor.

Mary: How do we love our neighbor? Why does it seem so difficult for many people to love our neighbor?

Joseph: Maybe because they do not love themselves and are not at peace with themselves.

It is easier to love our neighbor if we love ourselves. Therefore, "love your neighbor as you love yourself."

Mary: How to love yourself?

Joseph: Knowing thyself!

Realizing that you are a set of gross and subtle bodies (physical, emotional, mental, soul, etc.). We are a mix of human and Divine parts.

Revealing the Fivefold Path for Happiness - here and now.

Mary: How to know yourself?

Joseph: We learn about our human part through Swadhyaya - self-study, analysis, observation and exploration of the body, mind and emotions.

Mary: OK. How do you know the Divine part within us?

Joseph: Very easy, through meditation. Meditation helps us to realize our Divine Nature.

Mary: If you say it is easy, why do not many people meditate? Why are we distracted with gifts, objects, pleasures, etc. most of the time?

Joseph: Because of the social programming which pushes us to seek happiness through perishable objects and changing events outside of us. In addition, appearances, prejudices or subtle Crocodiles (selfishness, lust, anger, envy, etc.) catch us up.

EDITOR'S NOTE - continued

Mary: How do we change the virtual social robotic programming that ties us to a vicious and descending circle for a real conscious programming that frees us into a virtuous ascending spiral?

Joseph: With a Universal Program that is presented in moments of chaos and it is essential to re-establish balance in our Individual and Collective Self.

This is called the **Fivefold Path (FP)**. It is the basis of all spiritual paths. Its foundations have a timeless character. **Shree Gajanan Maharaj (from Akkalkot, India) came to remind us and show us the way home (God) through the FP.**

The practice of Fivefold Path (Agnihotra, Daan, Tapa, Karma and Swadhyaya) helps us manifest love to all creation in conscious, practical, effective and powerful ways.

The FP leads towards the Auto-discovery or Divine Self-realization.

Mary: If we know about the FP, why sometimes we do not take the time to practice? Usually we seek God only when problems and suffering are too great. How to change our priorities, look and listen more within? How can we invest more time in FP?

Joseph: 1) Realizing that everything around us is constantly changing and your reality is virtual and ephemeral.

2) By being focus on the light (Reality). If we are distracted all the time, we are lost at

sea (illusion, Maya, etc.) and eventually we are wrecked. 3) Following the footsteps of the sages and saints who have stood "face to face with God" and join Him /Her.

Fortunately by **Divine Grace**, in different times and places, the Almighty has sent servants or beings as beacons that guide us and point the way to reach the mainland (or main heaven).

Therefore, the company (Satsang) of great Masters such as Shree Gajanan Maharaj, Shree Vasant V. Paranjpe and other selfless luminous beings inspire us to "Be Love" in our thoughts, words, emotions and actions.

The Fivefold Path is the synthesis of all the sacred teachings through time and space.

These practical, scientific and spiritual disciplines (Sadhana) are available to all without restriction of religion, race, gender, intellect, economics, age, etc.

You may start with the Agnihotra fire and when you feel ready, share it. Do not be afraid. Do not hold back. **There is a strong Divine Will for this Healing Fires to spread all over.**

So, let us walk together and support each other. Let us meet with the immutable Light and primordial sound to be happy here and now.

HOMA HEALING STORIES

**Narcilo Villavicencio Maldonado
Instituto Tecnológico Bolivariano
Guayaquil, Ecuador, South America**

"I am 56 years old and a medical doctor. I am seeing a neurologist because I have **fibromyalgia**. I've been suffering from this for a year and this truly is an ugly pain. But by being present in front of the Agnihotra, feeling the Fire and breathing the smoke, I feel better. For this reason I want the Agnihotra ash and do not want to lose contact with you and this technique.

I plan to participate in the Homa Therapy workshop here at the Technological Bolivarian Institute."

HOMA HEALING STORIES

Segundo Espinoza Onofre Father Damien Foundation Guayaquil, Ecuador

"On May 10th I will be 92 years old. I have had Hansen's Disease (Leprosy) for over 20 years. I used to be a farmer in Vinces. **I suffered with a wound on my foot for over 20 years. It did not heal. I have tried many remedies but nothing, no cure.**

And here, in the Father Damien Foundation, the nurse told me: 'With this Ash you are going to get healed.' The wound was open, the flesh was exposed, and the skin was peeled off when she applied Agnihotra ash. **On the third day the wound was closed!** She kept on putting the Ash and I was completely fine in one week. Previously, they had tried to cure me with all kinds of drugs, I have gone to many places but nothing could cure me. **Now, I feel very good and I say after God, this Homa Ash."**

(Photo: Mr. Segundo Espinoza participating in Agnihotra and telling his Homa healing experience.)

Rufa Grueso Paredes Guayaquil, Ecuador, South America

"I am 59 years old. I am from Esmeralda and I am a nurse assistant. My problem was that I had a gastritis which did not improve. I had all the tests done, an endoscopy and a biopsy, but they found nothing and so my problem continued. **I've suffered from gastritis for about 10 years.**

Here in the home of Dr. Cesar Merino I received Agnihotra ash because they saw me taking a pill for this problem. The lady told me to take Agnihotra ash every two hours and I did as I was told. The first day I took the Agnihotra ash, I felt bad. I felt so full and I was very sleepy.

The second day, I also felt sleepy. When I got home in the evening, my stomach relaxed a lot, but truly a lot. I had something like a diarrhea. I was sweating and I felt something burning like the cleaning of a wound. I felt this burning sensation down to the soles of my feet.

I spent an hour evacuating thoroughly. When I looked what was coming out, I saw something like coffee. Afterwards I had to use chlorine to clean the toilet. Now my stomach feels lighter and I feel good. I seem to have taken off a few pounds. **I feel leaner, and lighter.** I can now wear clothes now that were too tight before.

I also suffered from a lot of pain and swelling in the knees. but **I do not have this pain anymore and the swelling is receding rapidly.** I also used to take pills for this pain, but with the Agnihotra ash I feel good.

Also, for many years, **I have had sleeping problems (insomnia).** **The intake of Agnihotra ash helps me relax and I feel good when I wake up.** I sleep more and I feel as if the burden of a stone has been removed from me.

I also have an eye problem; **I do not see very well and sometimes my vision gets blurred.** **But, by taking the Agnihotra ash, I feel as if my eyes are brighter.** I had my eyes irritated and also used to have dry eyes, but now I feel better. And **all this has happened in a few days by taking the ash. It is as if God's hand is there.**

When I came here, **I also suffered from pain in my legs and my soles** which made me walk crouched in pain. **Now, I feel good and I can even dance.** I no longer have pain and I feel very happy. By the way, **all these improvements did not happen in weeks or months, but in days."**

(Photo: Mrs. Rufa happily sharing her good results with the intake of Agnihotra Ash. Now she has also gotten her Agnihotra kit and started with its practice.)

HOMA HEALING STORIES

Leonor del Rocio Aguirre Mosqueda, MD
Guayaquil, Ecuador, South America

"I'm a Pediatrician (Medical Doctor) with 37 years of experience in Medicine. **Dr. Alberto Duque** gave me a bit of the Agnihotra ash with a little water. He said that along with the balance he generated with the electro - acupuncture, the Agnihotra ash would help me to evacuate. He said I was going to feel a change in the gut. **I suffered from problems in the colon and I was retaining too much feces.** He said I would have a big bowl movement.

And actually, I was surprised when I evacuated because it was very big as if I had received an enema or a laxative.

There was so much stool, that it almost covered the toilet. I had never had an evacuation like this one. Then I felt so relieved. I felt empty and I lost weight. Without knowing much about Homa, by simply taking the Agnihotra ash, this has happened.

I'll get the Agnihotra kit and will begin with its practice. I want to be part of the group that helps others and especially children. This is going to be a wonderful thing.

(Dr. Leonor Aguirre and her husband during Agnihotra at the restaurant "Amaranto". Now they have their own Agnihotra kit.)

Dr. Tayana Bedregal, MD
Lima, Peru, South America

"I have worked for three years in organ transplants in the National Hospital Guillermo Almenara. **I am a doctor dedicated to Pediatric Surgery.** Since childhood, I practice yoga, thanks to my family. A friend invited me to a very interesting therapy (HOMA) in the place where we usually go to meditate, do yoga and Reiki. Christian began to light the Fire and explained roughly Homa Therapy and said that

Agnihotra ash helps to cure diseases. We all took some with a glass of water. Later in the evening we did Tryambakam Homa and ***I reached quickly a deep state of meditation, which usually takes me much longer.*** I could see a small elephant that appeared near the Agnihotra pyramid and who began to dance around it. My eyes were closed; I saw it in my mind. I was not looking at the Fire. I was just meditating.

Then the elephant showed me a pyramid like the ones in Egypt. I approached to look into the Fire and saw a star constellation. I thought to myself 'there is a world inside the Fire in the pyramid'. I looked at the constellation and then returned back. ***Everything was just bliss!***

When we had finished, Christian said 'this has never happened before - the fire was blue and was swirling.' When I told Christian what I had experienced, he told me about Orion and yes, it looked like the Orion constellation.

My friend, **Engineer Belissa García Robles (photo on the right beside Dr. Tayana)** also saw the elephant dancing. ***After this experience I feel much happiness and since then many spiritual things have happened. All I can say is that Homa Therapy is something beyond my intellectual understanding.***

HOMA FARMING - THE SOLUTION FOR THE FUTURE OF OUR PLANET!

Dr. Pramod Basarkar from Dharwad University, Karnataka sent following information about 'Jayashree Homa Garden' in Vita, Sangli Dist., Maharashtra, India

"Prof. Jayant Barve (photo left in white shirt next to Dr. Basarkar), founder of Jayashree Garden has been in organic farming since 1988 and in **Homa organic farming (HOF) since 2011.** He is a retired **Professor of Physics** and he is very well known in India. **He cultivates a big variety of crops and owns lots of country cows.**

His pomegranate has earned him a good name. He also runs a factory where natural bio-fertilizer is prepared in which he adds 50 grams of Agnihotra ash to each 50 kg bag. **Users have reported good improvement in their crops as compared to the compost without Agnihotra ash and he receives laurels from his clients.**

Mr. Jayant Barve explained that during 1992-95 vermicompost was widely used in agriculture. Then it declined since farmers did not understand the importance of inoculums (microorganisms in the soil) along with vermicompost. He himself was reluctant to start Homa organic farming because of lack of knowledge but he opted for HOF during the severe draught period of 2011-12. When he studied the Homa literature he felt that something was missing on his farm. **He constructed the Agnihotra hut and started practicing it.**

A Homa Resonance Point (HRP) was established. He realized the difference in the ambience and atmosphere with and without Agnihotra."

HOMA FARMING - THE SOLUTION FOR THE FUTURE OF OUR PLANET!

Continued from page 5:
Dr. Pramod Basarkar

"The subsequent year, even though the draught was more severe than the previous year, he had sufficient water for the cattle and the crop since his well-kept on providing sufficient water. He relates his experience to that of Lee and Frits Rigma of Om Shree Dham Homa farm in Hunter valley,

Australia. *They demonstrated that Agnihotra performance drew water from a distant place to their farm. They attributed this effect to the practice of Homa organic farming.*

Prof. Barve explained in detail the importance of organic matter and of microorganisms in the field for better crop growth. It was observed that farmers usually neglect these aspects and do not realize the importance of inoculums.

Note: One cow dung dropping is sufficient to supply microbial inoculants to one ha (2.5 acres) land.

Besides, Shri Jayant Barve has inspired 40 people in his community to start Agnihotra in their houses in Vita and organizes group Agnihotra meetings on the terrace of his house. He acts accordingly to the saying that "working hands are better than praying lips". Many more are joining his working hands now".

"Free energy has been released to the people. You can choose to be skeptical if you wish, but in time (perhaps just a few short months) the reality of what is happening will become more and more apparent.

Open sourcing the plans for the QEG was a turning point for all of us. Now that the cat's out of the bag, we would like to take this opportunity to fully disclose to The People the full background story behind the last 6 months. McDonald's Happy Meal shows no sign of decomposing after SIX MONTHS

Looking almost as fresh as the day it was bought, this McDonald's Happy Meal is in fact a staggering six months old. Photographed every day for the past half a year by Manhattan artist Sally Davies the kids meal of fries and burger is without a hint of mould or decay.

In a work entitled The Happy Meal Project, Mrs. Davies, 54, has charted the seemingly indestructible fast food meals progress as it refuses to yield to the forces of nature. 'Although, I would be frightened at seeing this if I was a meat eater. Why hasn't even the bun become speckled with mould? It is odd,' she says.

When asked if their food was not biodegradable, McDonald's spokeswoman Danya Proud said: 'This is nothing more than an outlandish claim and is completely false.'

Morgan Spurlock also made the film 'Super Size Me' in 2004 charting the changes to his body eating just fast food for 28 days had. Please see:

EVENTS AROUND THE WORLD - ARMENIA, COLOMBIA

Mother Dora Betancur sent this letter with photos from Armenia:

"The Homa Medical Center "La Botica de la Abuela" continues cheerfully and generously open! Soon it will change its venue, image and name and will be called "BOTICA SOL" - To shine and put light forth to every corner of the planet!

The healing Homa fires are the strength, guidance and light in each of the activities and functions of the Botica. They are the musk, the releasing balm of ignorance and disharmony, they are the truth revealed day by day. Agnihotra ash is present in each of the preparations in the kitchen, and it is also distributed daily and a culture is created in which people make use of this ash in different forms and applications."

MESSAGES FROM SHREE VASANT

Those who seek personal gain only find their own destruction. Seek ye first the Kingdom of Heaven and all shall be added unto thee. Let not seeds of past desire confuse the state of happiness you are still capable of reaching. Surrender and “Thy will be done.”

You must get into the habit of smiling all the time. All the time smiling. It has a good effect on your mind, not to mention the joy you bring to others. If you feel quiet, be quiet but always be smiling.

Shree Vasant Bhurugu Aranya, Poland December 25, 2004:

If there were such a thing as the 'midnight hour', Earth is way past that, living on 'borrowed time'. We know it. We have known it for many years. Numerous warnings have been issued from Our lips over all these years. In all Our writings, in Our talks and interviews, in personal instruction to those near, in publications for those near and far, We have not ceased to tell the people of the grave situation befalling the planet. We are not alone.

It is not simply ecological deterioration, but disaster and on a great scale now. Whole forests are dying. Great waters are being poisoned. The heavens cannot hold more toxins. They rain down upon the Earth.

It is Our fervent prayer for this toxic rain to cease, for human beings to become aware of the deadly danger and begin the way to health and purity, harmony and healing. We shall never cease nor tire in Our work on this level and beyond, on subtle levels. We are all ONE. We are all one in the Eyes of Divine. OM TAT SAT.”

FROM ORION TRANSMISSIONS

(as received by Parvati Bizberg, Poland)

On Visible & Invisible Healing

Yes, yes. While the world continues on its path to destruction, there are forces in position to heal and save this planet. It is difficult to attempt to explain that which, by its very nature, defies explanation. Certainly, mere words cannot come close to suffice. However, as language for now seems the only mode of communication, we must try to condense our perception into words. Realize that the use of words can expand one's awareness or contract it, depending on the source, intent and delivery of the message. Limiting though it may be, let us begin.

That which is beyond comprehension is operating on behalf of this planet now. One could call it the element of Grace.

Healing power does not limit itself to one's hands, but can be integrated into one's soul.

There are those who have come to Earth simply to fulfill this mission to save this planet. They may not be fully aware of their own propensity for sending and receiving healing energies. This may often be done through them, with only an inkling here and there of the healing power residing in them. Often, this blissful state of unawareness is for their own protection. Neither name nor fame interests them. Thus, healing can flow freely through their instruments. And their 'tribes' are increasing.

Yes, yes. We have made some progress in the seas. Still, species threatened by radioactive particles continue to be at risk. It is a race against time. And still, willful slaughter of the most peaceful of creatures continues en masse on this planet.

The forces of darkness and light most certainly are coming head to head. We know the outcome. It is our duty and responsibility to continue to push through to awaken those whose souls have come to work in the Light.

The purity of the fires and resultant ash are essential to the next phase of planetary evolution.

OM TAT SAT.

On Polar Shift and Climate Chaos

Yes, yes. The polar shift, which we have foreseen, is not a sudden occurrence that will set the world on its side. It is a gradual process which has already begun. But in May 2015, it will reach a point where these expected changes in weather and so on will become undeniably obvious to the naked eye, so-to-speak.

Climate change is already well underway. Expect more extreme weather patterns—extreme cold temperatures in lands where the weather is generally warmer, extreme winter conditions in regions which have previously witnessed far less snow and even in some places, none at all!
